## Arat Trading Company

Arat Trading Company has managed to produce all kinds of sandals and slippers, using the best raw materials with the best quality as well as the highest durability. This company has planned to package its products in order to enter sales market after testing and analyzing in the high-tech laboratories as well as approval of relevant experts.

## Types of sandals for women

### Flat sandals

This type of sandal comes with no heel considered as one of the indelible products for women's style that can be a good option for daily and light intensity activity. The tops of these sandals are made of leather or hemp fiber used as slippers or carpet sandals. Arat Trading Company offers flat sandals to the market in a diverse range of sizes and colors.

### High heel sandals

You can use these sandals at parties or gatherings due to their unique beauty. These types of sandals will make you look taller leading to an increase in your self-confidence.

### Closed toe sandals

This type of sandal has a unique feature that distinguishes it from other products, the quality of this product prevents tearing, impact and has a high resistance against moisture. The soft insoles of Arat Sandals prevent physical diseases and keep you healthy.

## Women's platform sandals

Platform sandals are a great option for stylish women. This product has wide lodges, made of PU or EVA, offered in a diverse range of designs and colors. Platform sandals are an alternative to high-heeled sandals and are suitable for parties.

## Flip flop sandals

Flip flop sandals are one of the best-selling sandals in the world, have a very soft and low-density UVE insole and does not damage your back while you are walking. Flip flop sandals are a good option for the beach and walking. Arat Trading Company has produced a diverse range of flip flop sandals that can be used as slippers or carpet sandals.

### Gladiator sandals

Gladiator sandals are popular in the hot seasons. Arat Trading Company has produced fashionable models using new tools as well as methods and has offered them to customers based on their tastes. The leather used in this product is one of the highest qualities and durable leathers in the world. Gladiator sandals are one of the most famous one because of their stunning beauty.

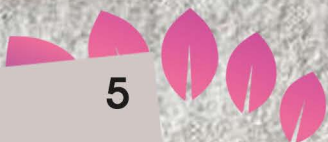

### Orthotic sandals

Arat orthotic sandals are suitable for the anatomy of the body to prevent any possible damages to the knee, back, leg and ankle. The soles of these sandals are made of soft and Flexible leather improving the condition of the feet and coordinate the body organs.

### Specifications of medical sandals:
